

Daley's Scenic Park Tract Walk

This walk, depending upon pace, will take between 1 and 1-1/2 hours. There are a few steep uphill but it is otherwise not particularly strenuous. Due to the vistas available from various spots along the walk, it is particularly nice before sunset.

This route was used for one of BPWA's "friendly" walks which do not feature prepared material like the theme walks. The walk covers an area rich in historic and architectural gems. For background material about the area, refer to the following materials:
